### **Concession Stand – Joel & Sara Gladfelter**

- No real update, couldn't really run it this fall

Sam noted there's a fair amount of food and stuff still out there - possibly donate it instead of it going bad?

Food banks are all looking for stuff - we can find a way to get it over there.

Should be manned by parents of teams, and make it mandatory, set up a sign up genius

Co-commissioner for the snack shack? Mary can advertise when she posts about some other positions

### **Tennis – Patty Koestner**

- Still looking for coaches, in contact with several

- Looking to fix/replace backboards

More competitive, tournament options, coaching clinics, etc opens more resources for everyone

- Looking to start a middle school team, HMS said no. Similar to baseball, looking to start a program with
- Kevin says to go for it and submit permits - February meeting about fields.
- In field discussions - need to point out the MOU backs us up, and that Rec should get priority over Travel for fields. Softball should always get softball fields.

### **Referee Mentoring – Rachael Zajac**

- 4 basketball training sessions complete. 23 high schoolers in the program

Rachel is hopeful, lol. Other councils are going to commit to help paying the kid referees. The community overall doesn't realize it's a separate program from the senior referees.

Game schedule was just sent out for this weekend.

Doug Stead is helping (he's at 7th). Starting in Dec going to have coaches fill out cards after games for feedback to for the kid refs

Need to have the insurance before we're "official", figuring that out so we aren't paying for it now when it doesn't start until fall

A Few requested items from the county - Mary will add them to our inventory/request list

Onboarding call is coming up soon

Buying a printer and housing at Home Base to print flyers? Laser color printer?

### **Old business**

- Non-profit mentoring

- Mary connected her with Matt, still have a few good hours to go

Mary finished working on the by-laws. Added to the bylaws that the board will on any important issue, open voting to the programming committee so all the votes will count.

Board is fully covered by insurance and will do the voting. Board will take everyone else's opinion into consideration. Any voting opportunities that the board feels are important, will be opened up to the programming committee (all commissioners). Everyone is then liable to that vote.

Suggested term limits, Mary argued against. Term limits are for 1 year, which we're already doing, but council can vote for someone to continue in perpetuity since it's hard to find volunteers for positions anyway.

By laws sent to mentor for lawyers to review, once it comes back it will go to Kevin and the county for it to be approved. We can't vote until the county says it's approved.

Need to be able to pay credit card online. Dan and Mary have been going back and forth emailing for a paper trail to keep the credit limit more open.

Matt mentioned coaches associations offer insurance a lot of times for cheap as part of their memberships (football, basketball, baseball, NFL Flag requires the additional insurance).

Moving forward there will be a volunteer policy and handbooks for coaches to sign - information/policies that we need coaches and commissioners to read and sign.

By laws don't change (shouldn't change often), but policies can be changed/addressed by vote as needed. Things like job descriptions for positions, volunteer requirements/expectations, etc.

## **New Business**

- College football foundation for teachers - game ball award to give to a teacher who makes a difference, with a t-shirt and a \$25 gift card.

- Motion to adjourn meeting made by **Sam 2<sup>nd</sup>: Heather** at 8:39 pm.

**Next meeting:** Tuesday, 12/09/25 at 7:30 pm at Home B.A.S.E.
